DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: independent claims 1, 12 and 15 teach transmitting network wireless performance parameters to a server by way of a GGSN while a data session is being set up.
3. The closest prior art of record, Veres, does not teach passing network performance parameters to a server via GGSN while a data session is being established. Therefore, independent claims 1, 12 and 15 are allowable over the prior art.
4. Claims 2-11, 13-14 and 16-20 are allowed by the same rationale as well as the further limitations added by these dependent claims.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
